

# GALVATHERM THERMOCOUPLE

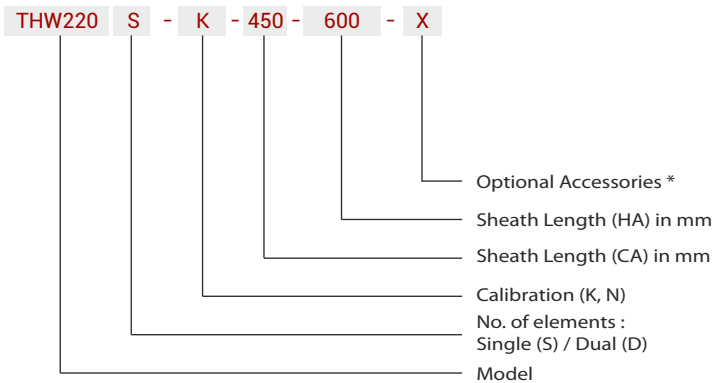

## ANGLE THERMOCOUPLES FOR GALVANISING BATH

### INTRODUCTION

- GalvaTHERM is a specially developed metallic sheath to withstand the erosive nature of liquid Zinc.
- Recommended for continuous dipping.
- All assemblies are supplied with die cast aluminium terminal heads and high purity ceramic terminal blocks.
- Ungrounded (isolated) hot junction as standard.
- Assemblies may be dispatched with the hot arm unattached for assembly at the time of installation due to size limitations.
